TO WHOM IT MAY CONCERN

CAPABILITY TO CONDUCT ALL PROJECT MANAGEMENT SERVICES IN THE AGRICULTURAL SECTOR AND SPECIFICLY FOR LAND REFORM PROJECTS.

This letter serves to confirm that OABS Development (Pty) Ltd has been contracted annually by Potatoes South Africa since 2014 to conduct pre-feasibility / feasibility studies and to compile comprehensive whole farm business plans, pertaining to the following project initiated by the Transformation Core Business:

- **ENTERPRISE DEVELOPMENT PROGRAMME (EDP): TO IDENTIFY, SUPPORT AND DEVELOP BLACK POTATO FARMERS WHO HAVE THE POTENTIAL TO FARM COMMERCIALY IN THE FUTURE**

Annually Black farmers can potentially enter the EDP, but such farmers must have access to enough land suitable for potato production. Access to a mentor is also a pre-requisite before a Black farmer will be considered for the EDP. The Transformation Core Business has been engaged in the process of identifying Black farmers that have the potential to enter the EDP in any given financial year. Once Black farmers have been identified they must be screened, i.e. pre-feasibility studies must be conducted. Once a Black farmer is approved to enter the EDP comprehensive whole farm business plan must be compiled.

Kind regards

DR. ANDRÉ JOOSTE
